

A woman with long, wavy blonde hair is the central figure. She is wearing a leopard print dress with a deep V-neckline and thin straps. She is sitting on a chair with a curved wooden frame and leopard print upholstery. She is looking towards the camera with a slight smile. The background is a plain, light-colored wall.

"MY FRIENDS SAY THAT I dress wild because I am wild," reveals Marc. "But I say that I'm only wild when I'm in the mood, and then dress to match the way I feel. "Either way, it's exotic, erotic, and sexy."

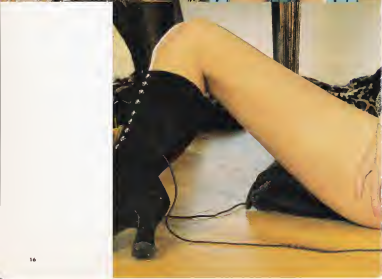

The 29-year-old blond from San Antonio works as a model and dancer, uncovering her 38C 25-35 figure whenever she can. But even when she's dressed, she says that she can feel totally uninhibited—as long as she's wearing something wild.

"In my case, the clothes often dictate how I will act," she claims. "If I'm with a guy and I want to be soft and seductive, that's how I'll dress. And if I want to be untamed, I'll put on something that fits the mood."

"Either way, I end up taking off everything before I have sex—and that's all that matters."

A full-page photograph of Kelly Rowland posing on a dark blue couch. She is wearing white lace underwear and thigh-high stockings, with a large diamond necklace and matching bracelet. She is holding the waistband of her underwear. To her left is a bouquet of pink and white flowers. The background is a solid blue color.

Dallas, TX

TAMMY HAS A PHILOSOPHY THAT SHE LIVES BY.

"I believe that the more you put into something," says Gallery's 'Girl Next Door' of the month, "the more you get out of it."

For the 22-year-old brunette, those words hold true in life as well as love.

"I won't do things halfway—when I go for something, I really go for it."

"I am a fulltime student at the University of Texas, and I'm devoting a lot of energy into getting my degree. One of my goals," she relates with a smile, "is to become so successful that I dethrone H. Ross Perot as the richest person in the state!"

As if that objective doesn't consume enough of her time, the 5'3" native of Dallas also has set her sights on fulfilling numerous other personal and physical needs.

"I consider myself to be a

very active person," reveals the 34D-23-33 'Girl Next Door'. "I like to keep in shape and stay healthy."

"When I have the time, I go hiking and fishing. Also, my friends know that they can find me at many of the lakes in the Dallas area, working on getting rid of my tan lines."

"As for my personal goals, I've always wanted one very special person in my life. I'm extremely happy that has happened."

Somewhere down the road, Tansy hopes to fulfill a unique sexual fantasy with this special person.

"I want to be with him on a motorcycle, riding on an empty highway," she says. "The thunder of the motorcycle would help to intensify an already satisfying erotic situation."

If her philosophy holds true, we anticipate that Tansy will put a lot of energy into achieving this fantasy so that she can get a lot out of it.

Tansy is the tenth monthly winner in Gallery's current 'Girl Next Door's Amateur Erotic Photo Contest. She wins our monthly prize of \$2,500. Now she is eligible to compete against our 12 other monthly winners for the title 'Girl Next Door of the Year'—an honor that will bring the winner \$25,000 in cash!

"PEOPLE ASK ME IF I'M into new wave, new age, punk, or grunge," offers Gita. "Actually, I'm not into any of those things."

"I'm into having sex and having a good time," she smiles.

The 23-year-old brunette was a music major at U.C.L.A. before she switched to photography. These days, she combines both. And her favorite subject is her own body.

"There are so many ways to photograph the female form," recalls Gita, uncovering her 34-23-33 body while the latest releases from Stone Temple Pilots and Pearl Jam fill the studio. "I think of my body as being a canvas—one that I can design with tattoos, clothes, and other accessories to suit my moods."

"I always think about sex while I'm modeling," she adds. "That gets me hot, wet, and excited. That's what I want to come through in my work—and that's how I want people to feel when they look at my photographs."

"WHEN I'M WORKING, I ENJOY BEING wet and naked," says Tiffany. "But I also enjoy being that way when I'm playing."

"That's just how I am."

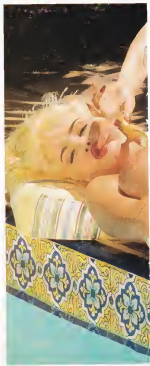

The 21-year-old blond says that her passion for being moist on the job started at her first photo shoot.

"The photographer asked me to strip, which I thought was unusual since I was modeling winter coats. When he explained that the coats would look more erotic if I was naked, I had to agree. Then he sprayed my body with water to make my skin shine.

"YOU KNOW WHY MEN like to visit Hawaii?" asks Baya, wearing a lei and little else. "Because they get to see sexy women like me, running around on the beach totally naked."

"When I take it off, I take it all off. And when I go for it, I go all the way."

The 19-year-old student says that being uninhibited and showing off her assets comes with the territory.

"When you live in Hawaii, you always have that sense of being free and energetic," Bayo relates as she runs her fingers over her 35-24-33 body.

"There are lots of places where my girlfriends and I can skinny-dip or sunbathe in the nude."

"And you can always tell if a guy is visiting from the mainland. Even if he's trying to act nonchalant when he's checking us out, the bulge in his shorts will give him away."

"And I love it," adds the exotic brunette, "because I know that he appreciates what he's seeing."

Sara

ACCORDING TO SARA, "I LOVE TO EXERCISE and work up a sweat. Sometimes, I'll do it on my bike, exploring the countryside. Sometimes, I'll do it at my local gym.

"But my favorite form of exercise takes place when I'm naked and between the sheets."

Sara, a 20-year-old student from Wyoming, says that keeping in shape and staying active are very important to her. But she quickly adds that exercising doesn't mean going through the same routine day after day.

"I saw a chart that explained how many calories you can burn off during sex," she laughs, uncovering her healthy 34C-23-34 body. "And it's possible to burn off varying amounts of calories when you have sex depending on the position you use."

"When I saw that, I knew right away I wanted to bare off as many calories as possible in as many different positions as I could handle."

"Now," she emphasizes, "exercising is fun ... and erotic!"

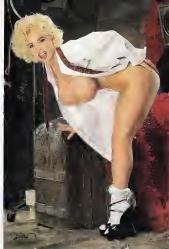

Sarennna

PHOTOGRAPHS BY WARREN TANG

SARENNA LIKES MOVIES from the '20s and '30s. "Silent movies are my favorites. Every one is so animated," says the well-endowed blond bombshell. "I've been acting for a while, and I love collecting old film equipment. Sometimes I pretend I'm a world-class actress/director."

"It's fun to make myself up in long flowing dresses, frilly clothing, and even suits," Sarasona says as she slowly unbuttons her shirt and runs her fingers over her firm body. "I love to play many different roles."

Though none of her equipment works, Sarasona knows how hot it gets under those lights.

"Usually when I'm with a man, I'm the director and I tell him what to do. When I yell, 'lights, camera, action!' we improvise," she says, grinning. "I've even thought about taking this show out on the road." If she does, we'll be sure to catch her act—and bring it to you!

bree

"SOMETIMES," SAYS BREE, "A GIRL JUST WANTS to be close with her thoughts, her desires...and her wandering fingers."

"This is one of those times."

The arctic brunette relates that she never knows when the urge to go solo will strike. But when it does, she's never unhappy.

"I can do things when no one else is watching that I won't do in front of others," Bree states as she strips to reveal her 38-24 34 body. "I can let my fantasies get real nasty."

"This time, I imagine that I'm

alone in the woods...or, at least, I think that I'm alone. I take off my clothes. I feel my nipples get hard...I put my fingers between my legs...and move them back to my lips to taste the product of my urges...

"Only then do I realize that someone is looking at me," she moans. "I sneak over to watch them masturbate... which sends me toward another climax that's even more intense than the first."
